BLAKE'S CABARET OF REFINEMENT

REMODELED AND REFURNISHED

To the elemental objection of the political form of public owner-ship so well expressed by Mr. Hurley, may be added another; the tendency, already so seriously manifest, of large political units to appropriate to themselves natural resources which should be employ

INSPECTION INVITED

appropriate to themselves maintain resources to which they are appuried of for the equal benefit of all territory to which they are appuried

Very truly yours

An Open Letter from the Vice-Presi-

dent and General Manager of the

Nevada-California Power Company.

(This is No. 3 of a series of communications from officials of The No. Andn-California Power Company to the people of the territory is serves, fraukly discussing mutual problems and mutual interests.

THE BETTER FORM OF PUBLIC OWNERSHIP

at the power companies as part of the campaign recently inaugura-ed for the promotion of municipal ownership by free access to the

State Treasury, it would appear that the impression prevails in some quarters, and is constantly deepened by the efforts of interested politicians, that these companies are owned outright by a few men

who realize enormous profits through the operation of unfair and ex

truth. More than 1,400,000 citizens of the United States have directly invested in securities of the Electric Light and Power industry.

iy invested in securities of the Electric Light and Power industry a greater number than has invested in any one class of securities except Liberty Bonds. It is also true that every clitzen with a financial interest of any character in a community may be classed as an wener, directly or indirectly, of electric milities securities, since can be shown that every stockholder in a hank, every holder of or beneficiary under a life insurance policy, every owner of industrial or manufacturing securities whose worth is based upon production made possible or incremed by electric power or heat or light, a financially interested More than \$300,000,000 of the assets of American Life Insurance companies are invested in Electric Light and Power company securities; therefore, every beneficiary under the 53,21,457 policies in force is interested financially in the worth of these

221,457 policies in force is interested financially in the worth of thes

try. In excess of \$1,700,000,000, or an approximate average of \$65,000 for each depositor, is invested in public utility securities. Stockholders in banks, depositors in banks and borrowers from banks, there

fore, have a direct financial interest in the strength of the publi

In the truest and best sense, public ownership of the utilities and has long been, an accomplished fact. Under this form of publiownership, those who manage these utilities under strict regulation by the State are directly responsible to stockholders, security holder

and the public at large for efficiency and economy of operation, an are held to a high and constantly ascending standard of service

They must make good and keep on making good, or give place those who can satisfy the exacting requirements, sans sentiment favoritism of modern business. The accounts of these companicannot be juggled or camourflaged. The maximum of their earnings.

fixed by the regulatory body, and the rates they may charge are tablished to give a reasonable return on two costs—that of plan-equipment and operation, and that of money. These rates, be it of

The other form of public ownership is based on a fallacy in has been pretty well exploded both in America and Europe since it

experience undergone on both sides of the water during the Wor

War the fallacy that the personal incentive may be eliminated fro-human enterprise without damage to the enterprise itself. He

what Edward N. Hueley late Chairman of the Shipping Board, sa

"Although at one time sympathetic roward government ownership, I am certain, after a number of years in government service, that no community can receive industrial serv-

ice to which it is entitled under municipal or governmental management. The cause for this is the human element. No

city, state or national industrial enterprise can expect to ob-tain from management, or from men, an average of more

than 50 per cent of personal interest in their work, and it must be remembered that this percentage will gradually decrease the longer the individual manager or the individual

employe is in this industrial government service. This is trunot only in America, but it is a proven fact throughout the world."

served, are in nowise influenced by capitalism
